Park smart & easy

Looking for a place to park downtown? You're in luck!

There are various parking options and locations for you when visiting Salem's downtown district. Knowing your options will not only save you some time parking and avoiding those pesky parking tickets, but it will also help improve downtown's accessibility and overall dining and shopping experiences.

PARKING GARAGES

Using the parking garages can provide many advantages over on-street parking:

Free parking all day! That's right, there's no need to move your car every 3 hours or load up time on a meter.

Each garage is covered, well lit, fitted with security cameras, wheelchair accessible through use of elevators, and equiped with charging stations.

Certain parking garages are split for use between customers and those who work downtown. Be sure you pay attention to the permit-only signs inside the garage before parking.

ON-STREET PARKING

All throughout downtown you'll find metered and non-metered parking options. But be careful! Not every parking spot is the same - look for those designated as 30min and 3hr limit customer parking spots. Here are a couple of other things to know:

Free on-street customer parking is limited to 3 hours per block, per day, and is enforced Monday through Saturday from 8am - 8pm.

Watch out for Loading Zones "LZ" on most blocks. These are strictly reserved for commerical business loading and unloading.

SMSA is advocating for a vibrant downtown.

The Salem Main Street Association (SMSA) is made up of community members who love historic Salem! We advocate on behalf of Salem businesses, property owners and residents to enhance our downtown through marketing and collaborative planning with the City.
